

## Internship Available Summer 2025

### About WeatherWorks:

WeatherWorks, an AEM brand, has provided a distinguished level of meteorological services since 1986. The company specializes in innovative weather and forecast solutions for clientele across the US. The high level of service and commitment to excellence has aided in the company's rapid growth to a staff of over 40 meteorologists.

### Internship Description:

The internship will focus on forecast creation and communication with frequent training and feedback. Exposure to additional departments will also occur, which can include forensics, research, programming, social media and / or marketing. The internship will be 2 days per week, lasting 10 weeks. This position will ideally be hybrid (in office with job shadowing, as well as virtual), though fully remote candidates will be considered. The hourly rate is between \$16.00 - 18.50 per hour. WeatherWorks is an equal opportunity employer.

### Application Requirements:

WeatherWorks is seeking candidates with a passion for weather, and the ability to create and communicate a fluid, descriptive forecast is of most importance. A strong work ethic and desire to learn is also needed to succeed. Additional minimum requirements include:

- Upcoming Senior Meteorology / Atmospheric Science major, Juniors may be considered
- Passion for forecasting and desire to work in the private sector of meteorology
- Sound knowledge of weather processes, and familiarity of forecast models and soundings
- Expertise in decoding METARs
- Excellent oral, written and personal communication skills
- Ability to multitask in a fast-paced environment

### Application Instructions:
